

DAY OF SPORTS HELD AT LAGOON

Ogden Beats Salt Lake in Special Match Game—Kaysville Defeats Bountiful.

The tenth anniversary of the opening of Lagoon as a pleasure resort was celebrated by the employees of that resort yesterday. The attendance was nearly 4,000, and the employees were the hosts of the occasion.

The feature of the day's entertainment was the baseball game between Kaysville and Bountiful. The game was delayed because of a misunderstanding as to pitchers, it having been alleged that Kaysville had a Salt Laker in their box. This was compromised by Muir, captain of the Bountiful team, and Phillips, captain of the Kaysville team, going into the boxes.

The game was particularly interesting, as nearly all of the men were in new positions, general changes having been made to adjust the changes made by the captains taking the places of the pitchers. The game resulted in a score of 13 to 6 in favor of Kaysville.

The Salt Lake and the Ogden league teams played an interesting game, resulting in a score of 2 to 1 in favor of Ogden in the tenth inning.

The other events were as follows: 100 yards free for all, Bruce Robinson. 50 yards race for girls, won by Ila McDonald.

50 yards for unmarried women, won by Ila McDonald.

50 yards for married women, won by Ila McDonald.

Standing broad jump, Hyrum Phillips, 10 feet 6 inches.

Mrs. Hans Christensen won the prize for having the prettiest baby on the grounds.

The batteries for the Salt Lake-Ogden game were Houser and Sears for Salt Lake and Blexrud and Henry for Ogden.

In the fall Mrs. Partridge lost the setting in a diamond ring. The stone was valued at \$100.

Real Estate Association Asks Mayor to Veto It—Communication From Scheid.

The Ogden Real Estate Men's association yesterday appointed a committee to appeal to Mayor Conroy to veto the waterworks company franchise, if he thought that the mayor will heed this appeal.

In addition to the stand they took on the water franchise matter, the real estate men took up the question of the price of lumber and made the announcement that responsibility for the prevailing high prices had been traced to the dealers.

Karl A. Scheid, manager of the board of fire underwriters for Utah, sent another communication to the association in which he lays stress upon the fact that the special committee appointed by the mayor to investigate the recent large fire had not as yet made its report. He then deals with the matter of reducing insurance rates.

"You ask for suggestions that will secure in the fulfillment a reduction of insurance rates. As a result of a visit to Ogden last week I want to call your attention to certain deplorable conditions which must, first of all, be corrected to enable you to even such rates as you now have."

"First, I find that between the hours of approximately 6 to 9 a. m. and 3 to 6 p. m. your water pressure runs as low as sixty-five, or even sixty, pounds, and that it would take some thirty minutes to increase the pressure to the normal standard. This inadequate pressure during the periods stated becomes a serious menace. The thirty minutes required to increase the pressure would be the doom of your town in case of general conflagration. I therefore recommend that immediate steps be taken to secure permanent pressure of from eighty to one hundred pounds at all hours of the day and night."

"Second, I find that violations of building laws are being perpetrated without opposition. Your city ordinances stipulate that no buildings with outer walls in any part of wood shall be erected. Yet I can point out at least four such buildings erected within the congested city limits during the past few months. Hence, I recommend that by proper provisions further violations of this measure be prevented. The present building ordinance is altogether inadequate and particularly as permitting party walls nine inches. This is ridiculously inadequate requirement. I trust, will be remedied by the revised ordinance now being printed."

"Third, I found a general impression strongly prevailing that the recent severe police raid in your city was properly handled. I understand that a committee of investigation was appointed by Mayor Conroy, but that this committee has rendered no report. I strongly urge that the proposed investigation be made and the results submitted. If incompetency exists in the department it should be remedied and prompt action taken to remedy the weakness. If not, the department should be cravified."

Crawford's Preliminary Hearing.

James H. Crawford, the colored man who is charged with the killing of C. C. Lockhart on Friday, July 27, was taken to Ogden yesterday morning for the preliminary examination. About a dozen witnesses were examined. An adjournment was taken till 10 o'clock this morning. Crawford has engaged as counsel Maginnis & Cora and John C. Davis.

"WANDAMERE" IS DECIDED ON BY JUDGES

AS THE NEW NAME FOR CALDER'S PARK

"Wandamere" is the new name for Calder's park. It was made public at exactly 9 o'clock last evening when it was flashed from an electric sign on the shoot-the-chutes tower. Thousands of people crowded the park early in the evening and patiently awaited the hour when it was to be given out.

The name "Calder's" has been used for many years, and it will take some time for the change to become general, but the new name will be used in all advertisements and everything connected with the park. As soon as possible arrangements will be made with the street car company to have that name appear on the cars and on the transfers.

The competition for the new name, for which there was a prize of \$100 offered, was begun on the Fourth of July and ended on Pioneer day. Over 7,500 names were suggested. After working a week the committee thinned the number down to three, Isle and Vandamere. Over these three they debated for many hours, but they finally decided upon "Wandamere."

Great interest has been taken in the contest. Names of every sort were suggested, names of the presidents, favorites. One person bought seventy tickets just to submit names. The telephones at the park were kept busy continually by anxious ones inquiring about the new name.

"Hello, is this Calder's?" would be asked.
"No, this is Wandamere," would be the inevitable reply.

The number of the coupon suggesting the name of "Wandamere" is 5162. The check for the \$100 reward for the park office last evening, but no one called for it. The person suggesting the name sent with the coupon a letter explaining the name and at the end saying: "I would be glad to have the name of 'Wandamere' selected, and I am willing for the \$100 to go for charity."

The name is from the Indian "wanda," meaning beautiful or nice country, and the Anglo-Saxon word "mere" for lake. An extract of which was given in the letter:

"Like softened airs that blowing steal,
When merrily begin to uncoil,
The sweet church bells began to peal."

The coupons were numbered so the judges would not know who suggested the names, making the contest fair. The judges who selected the name were: Fisher Harris, Frank Y. Taylor, Richard W. Young, Stephen H. Love, Edward McClure, Hugh J. Cannon, Xenia J. Morris, William McLachlan and Hyrum Goff.

PARK CITY'S LIGHT PLANT

Summit Electric Company Begins Work and Promises Electricity in Year.

Park City, Aug. 1.—The Summit Electric company today began work on the city council granted a franchise, and to which the present council granted an extension of time to begin work, have finally begun work. It is to be a short time until the lines are to be up in Park City. Today a force of men were put to work below town on the pole work, framing timbers, etc.

It is the intention of the company to have light in Park City from the plant of the Intermountain company in Big Cottonwood canyon on or before Aug. 1, 1907.

Harry Thomas, who had charge of the Ontario company light works, has been placed in charge of the new work and will build the lines, install the plant, and have general charge of the entire business.

The heavy rains of yesterday afternoon, while of considerable benefit in the way of cooling the atmosphere, did a good deal of damage in the mountains to the roads. The road leading to Brighton and several other canyons all suffered.

Postmaster Peter Martin and his assistant, James Don, took formal charge of the postoffice today. Mr. Martin and Mr. Don are both well known here, and both have been in office before. The public are all well pleased with the new administration.

In the case of the state of Utah vs. L. J. Gillis, the evidence was all taken yesterday before Justice B. M. Sperry. The defendant found guilty of disturbing the peace. He was fined \$15.

might possibly be the old uniforms, Manager Waters of the local ball team has ordered a full set of new clothes for the Park City ball team, and the locals will appear in their new outfits about a week from next Sunday. The new uniforms are to be of a navy blue color trimmed with light gray, stockings and caps to match trimming. Coats are to be of red trimmed in the same color.

The local management have added a new man or two to their force, and when they appear in Salt Lake on Sunday, it almost a certainty, that the old story will not be told. Park City goes to the capital with the express intention to take the Dubites into camp, and unless their old hoodoo it with them bigger than ever, they will turn the trick.

Regarding the admission of Murray and the formation of a new schedule the management are anxious that this be done as they feel that a new schedule will make it possible to play with more ginger in the work, and will give the patrons of the game in all the cities represented a quality of baseball as good as that furnished by any state league in the country.

YOUNG MAN IS KILLED.

Stephen Gale Meets Death in Beaver County Mine.

Beaver, July 30.—An accident occurred at the property of Henry C. Gale in Granite district, Beaver county, today, by which Stephen Gale met his death. Henry Gale and his son were working in the mine. Three shots were prepared for firing, but in touching the fuses, they supposed only two of the fuses were touched or adhered to the fire, and upon the discharge of two shots Stephen returned to the shaft, just as the third shot went off. His head and head were badly cut and bruised. He lived about a half hour after the accident. He was 19 years old, and had been working with his father on this property since early spring.

Beaver, July 31.—Part of the company boarding house at Winter Quarters burned to the ground at 4:20 this morning. The canyon was lit up for a mile, so great was the blaze. It was a frame structure and built in two parts. One part was the cook and eating house and the other the sleeping or bunk house. The west part and dining room were totally destroyed, and some damage was done to the adjoining buildings, but the bunk house, only twelve feet to the east, was saved. Had it not been for the excellent condition of the waterworks the entire district would have burned down.

UNHAPPY ARIZONA.

(With Apologies to Kipling.)
"What are the bugles blowing for?" said Feather-in-His-Hair.
"To plight my troth, to plight my troth," cried Arizona fair.
"What makes you look so pale, so pale?" said Feather-in-His-Hair.
"I'm dreading what I've got to face," cried Arizona fair.
"For they're waiting for my answer, and the door is open wide
To admit me to the Union if I'll be an alien's bride.
And they're using Teddy Roosevelt to help me to decide.
And I'm marrying the greaser in the morning."

"What makes you pant and breathe so hard?" said Feather-in-His-Hair.
"It's boiling hot, it's boiling hot," cried Arizona fair.
"What makes the paint run down your cheek?" said Feather-in-His-Hair.
"A touch of sun, a touch of sun," cried Arizona fair.
"For the cards are stacked against me, and the usher's in the hall,
The priest is in the chancel and the church is at the altar,
And they say it's statehood as a bride or statehood not at all.
And I'm marrying the greaser in the morning."

"Why don't they let you in alone?" said Feather-in-His-Hair.
"It's politics, it's politics," said Arizona fair.
"What makes them all so blooming hard?" said Feather-in-His-Hair.
"The jealous East, the jealous East," said Arizona fair.
"The East is very fearful that too many states would wrest
Its legislative sceptre and bestow it on the West.
So it captured Mr. Cannon, and he kindly did the deed.
And I'm marrying the greaser in the morning."

"What's that so black against the sun?" said Feather-in-His-Hair.
"The Heap Big Stick, the Heap Big Stick," cried Arizona fair.
"What's that upon the desert wind?" said Feather-in-His-Hair.
"The wedding march, the wedding march," cried Arizona fair.
"There're flying to the mission, and there're playing 'Lohengrin'.
The wedding feast is ready, and they're waiting to begin.
And I hear the voice of Teddy saying, 'We will drag her in.'
And I'm marrying the greaser in the morning."

HIS CONSCIENCE WAS LIMITED.

(Kansas City Independent.)
"I have examined our public subscription boxes for years," said an officer of a charitable organization, "and in them I have found many queer things. The very queerest, though, was last year."

"On opening last year a box in a railway station, I found the gold settings of a necklace, a stomach, a pair of earrings and five rings. They were magnificent settings, worth a deal of money. I could not help but wonder what the stones which had been roughly torn out of them were for."

"These jewels, of course, had been stolen. The settings were now given to charity by the thief. The stones themselves would be recut and sold. Around this gift was a note which said: 'Sell for the sick. My conscience goes as far as this.'"
